Group

## Who are we?

Canadian Homeopathy Wellness Group is a company that focuses on leading the efforts towards natural health. Our mission is to better facilitate Homeopathy and other natural medical systems in the lives of their patients and practitioners around the world.

## Our portfolio

1

### Remport

A clinic management platform that connects healthcare providers to an exclusive directory, transforming the way they run their clinic.

The service is subscription-based and will cost 39.99/monthly or \$383.90/yearly. Projections are between 20 - 100 customers in the first year.

## Previous Invoices

Canadian Homeopathy Wellness Group was born during Covid-19, as a result of the need for awareness of alternative medical uses and its benefits. Among those medical systems, Homeopathy is at our forefront, and is in fact a regulated system of medicine in Ontario and is regularly used by over 2.9 million Canadians.

As is the nature of a startup, we cannot provide you with previous invoices in regards to the services we are seeking payment processing for. However, we were renting out property to clinics and other businesses prior to the new venture that is Canadian Homeopathy Wellness Group, and have gladly attached them for your viewership below.
